

- Monday, December 4, 2006

The following organizations and individuals made financial contributions to “Rays the Roof,” Linden Hills Co-op’s Community Solar Power Project. On behalf of the co-op and the entire Linden Hills Community, we would like to extend our sincere thanks to everyone who helped make this possible, including the many people who volunteered their time to staff tables, create materials, host events, knock on doors, pass out fliers and wish us well with the project.

We are working with Innovative Power Systems to obtain the panels and set up a schedule for installation—which we anticipate completing in early spring 2007. If you would like to help with installation or community education, please contact the co-op’s general manager, Paula Gilbertson, at 612-279-2461 or [pgilbertson@linden hills.coop](mailto:pgilbertson@linden hills.coop).

THANK YOU!
